

# HOWL AT THE MOON

© Frank Jones

Howl at the moon  
Now that the night has fallen  
Howl at the moon  
You know it's you she's callin  
And you can't hide forever in your room

Howl at the moon  
Come on and shout it  
Howl at the moon  
And tell the world about your heart  
And how it goes boom boom boom boom boom

Howl at the moon  
Down on all fours now  
Howl at the moon  
You know tonight is yours and  
Can you hear them all echoin your tune  
Howl at the moon

Howl at the moon  
Like your father before you  
Howl at the moon  
You know we all adore you  
It won't be long  
Can you feel it comin soon?  
Howl at the moon  
Howl at the moon  
Howl at the moon  
Howl at the moon
